The Winter 2017 Singles and Doubles schedules are now set up and ready to go on the USSquash website.

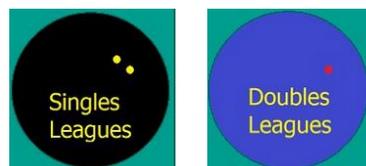

Play begins the week of January 3 for all Singles and all Doubles.

Please note:

- The **Super-B and B Doubles** are split into two equal divisions (Blue and Green).
 - a. The first two weeks of play in the Super-B and B Doubles will consist of matches vs teams in the other division. The remaining seven matches will be against teams in their own division, except for one interdivision match each week.
 - b. All matches count equally.
 - c. Playoffs for Super-B and B Doubles will consist of the top 2 teams in each division, semi-finals will be Blue 1 vs Green 2 and Blue 2 vs Green 1.
- C Singles Division - generally, a player needs to be rated **below** 3.75 to play in the C division. As an exception, if a player is rated 3.75 or higher and below 4.00, then that player may play, but is restricted to playing the number 1 spot. If such a player plays in the 2 - 3 positions, that match will be defaulted. Ratings for this purpose will be those that will be calculated as of 12/14/2016. See the **Ranking Periods - List History** section of the **Rankings** tab on a player's profile for the applicable rating. Such players include Brandon Conrad, John Walsh, Drew Brock and James Hillen. Note that such players may not be limited to this list - check ratings!
- B Singles Division - generally, a player needs to be rated **below** 4.50 to play in the B division. As an exception, if a player is rated 4.50 or higher and below 4.75, then that player may play, but is restricted to playing the number 1 spot. If such a player plays in the 2 - 3 positions, that match will be defaulted. Ratings for this purpose will be those that will be calculated as of 12/14/2016. See the **Ranking Periods - List History** section of the **Rankings** tab on a player's profile for the applicable rating. Such players include Josh Simon, Nick Lukens and Rodney Stewart. Note that such players may not be limited to this list - check ratings!

You will need to log in the first time using your US Squash credentials as per part 2 above. You can even use Club Locker to enter your team roster.

8. Playoffs

- a. There will be two weeks of playoffs at the end of the season.
- b. Generally, the top 4 teams in the division will participate, unless there are mitigating circumstances, i.e. there are only 4 teams in the division and not all of them participated adequately to qualify for playoffs (too many defaults or too few exposures).
- c. In the case of the **Super-B Doubles League** and **B Doubles league**, where there are too many teams to have one division, there are 2 equal divisions. The top two teams from each division will participate in the playoffs. In the semi's, first place in one division will play second place in the other, and the finals will be held at a neutral site if the seedings of the finalists are equal, or at the club of the finalist with the higher seeding.
- d. There is also one additional week scheduled for playoffs, the *Deferred Week*. Because of spring break vacations etc at this time of year, each finalist captain has the option of deferring one match to that following week.

Important Note #1 - Player Membership

If a player is not a current member, then even if that player is recorded as winning, the win will NOT be reflected in the Team Points. *Note: Currently there is a bug in the USSquash software where a doubles team may receive such credit for the win if just one of the players is current and the other is not. Those matches May be converted to defaults at the end of the season.*

If the offending player does become current afterwards, then the win may be restored.

Important Note #2 - Calculation of Standings

Standings and Playoff positions are determined by the number of Individual Matches won, NOT team wins nor games nor points.

Note that if there are an odd number of teams in your league, teams may receive a BYE sometime during the season. This may result in a different number of matches per team. This is why there is a percentages column to indicate the true team standings. This percentage represents the number of individual wins by the team so far, as compared to the TOTAL number of individual matches scheduled for that team for the entire season.

Games won only comes into play when two teams are tied in match percentage.

For more on tie-breaking rules, please see the League Playing Rules, item 6 - http://www.phillyboast.org/PSRA_Leagues_PlayingRules.htm.

There is also new information about defaults as regards to playoffs under rule 6:

In the event that one team (A) has a substantial number of default wins where they make the playoffs to the detriment of another team (B) that has a higher percentage of actual wins, then upon appeal from Team B, the league committee and association president may elect to hold a playoff feed-in match between the 2 teams. Factors may be taken into account such as the default record of each of the teams.

Points will not be examined in regular season matches, due to the fact that they are unreliable.

Important Note #3 - Entry Deadline at End of Season

All regular season matches SHOULD be recorded by noon the next day from the last scheduled match of the season and MUST be recorded by noon on the Saturday following the last scheduled match of the season. Please do not ask for an extension beyond that time.

This is due to the fact that captains and their players will be trying to schedule their time to play their playoff matches.

Please be courteous to all and have your results posted in time.

Important Note #4 - Playing Rules

You should also read the PSRA playing rules, found at the PSRA web site:

http://www.phillyboast.org/PSRA_Leagues_PlayingRules.htm

Answers to questions concerning playing in multiple leagues, substitution, playoff eligibility, etc. will be found there.

Important Note #5 - Defaults

It is important to the vitality of the league that captains take measures to field a team for all matches and avoid defaults.

For more information about defaults (new this year), please see item 18 of the League Playing Rules -

http://www.phillyboast.org/PSRA_Leagues_PlayingRules.htm

Important Note #6 - Clothing

All clubs require squash shoes to have non-marking (gum rubber) soles.

Many clubs (Merion, Philadelphia Cricket Club, Racquet Club, Germantown Cricket Club, Cynwyd Club) require players to wear all white, including visitors playing league matches.

Additionally, Merion requires white squash shoes, headbands and wristbands as well.

Huntingdon Valley allows squash clothing to be any color, but has a strict "No Denim" policy for clothing worn at the club.

If there's anything I missed, please drop me a line.

Thanks and have a great season,

Ken Jaffe
